

Hello Friend,

Merlinda the Wizard here with a special message for you from the Pediatric Brain Tumor Foundation's Imaginary Friend Society!

I know things might feel a little different for you right now. Maybe you can't go to school or you can't see your friends, or you don't get to go to baseball or soccer practice. I know how you feel. I can't go visit my pals Charlie and Roger right now, and mom told me that I can't go to ballet class either.

I'm here to tell you, though, that you're stronger than you know! You are NOT alone!

To make this time a little easier, my friends and I have put together videos, craft projects, songs to sing and so much more for you!

Join us for some fun and maybe even share a picture of YOUR imaginary friend with us!

Your friends at the
