**INGREDIENTS**

- 1 cup of cornstarch
- ½ cup of your favorite smelling liquid soap
- 2 tablespoons of vegetable oil (can use avocado, olive, or other)

**DIRECTIONS**

01 Get a large bowl and put it on top of some paper towels. This might get messy!

02 Put the cornstarch in your bowl.

03 Add in liquid soap and mix, then add in oil and mix.

04 If the mixture seems too wet, add a little more cornstarch as needed.

05 Add food coloring if desired. It may dye your hands when you’re making the soap, but not when you wash your hands with it.

06 The mixture will be a little sticky. Knead with your hands.

07 To use the soap, pinch off a little every time you wash your hands.
